

Battle Rope Anchor

Contents:

1. 2 anchor straps with looped ends
2. 1 Carabiner clip

Instructions:

Begin by identifying a sturdy stationary object that you would like to anchor your battle rope to. Ensure the anchor point is going to be strong enough to withstand repeated use with the battle rope. Once you have identified the anchor point, wrap one of the two looped straps around the anchor point and thread one of the looped ends through the other and pull tight. Using the other looped strap wrap it around the mid-point of the battle rope and thread one of the looped ends through the other and pull tight. Once you have the two straps attached to the battle rope and the anchor point use the carabiner clip to attach the looped ends of the two anchor straps together.

Warnings and Warranty:

1. Always consult a physician before beginning any exercise program.
2. Never wrap anchor straps around any part of your body.
3. Black Mountain Products assumes no liability for misuse of product.
