Inflating Exercise Ball:

Diameter:

45cm ball- 17 ½ inches

55cm ball - 22 inches

65cm ball - 26 inches

75cm ball – 30 inches

85cm ball- 33 ½ inches

Circumference:

45cm ball – 141cm or 56 inches

55cm ball – 172cm or 68 inches

65cm ball – 204cm or 80 inches

75cm ball – 235 cm or 92 inches

85cm ball – 267cm or 105 inches

1. Remove valve plug from reseal able bag.
2. Insert end of the pump hose into ball to inflate.
3. Inflate ball to size of diameter and circumference referenced above.
4. Quickly pull out pump and insert plug into valve to secure inflated ball.

*All balls **MUST STRETCH** to achieve proper size. This allows the ball to be stretched for proper functionality and use. Ball may seem filled, but each ball must be filled to the correct circumference.

* **DO NOT UNDER** inflate. Not fully inflating ball to correct size can cause risk of injury and may damage the ball. With correct inflation, each exercise ball will be very firm with a slight indentation when pressure is applied.

* **DO NOT** inflate your exercise ball when the room temperature where you will use the ball is greater than 90° F or below 32° F.

* **DO NOT** use an air compressor to inflate the exercise ball. Air compressors blow cold air that could expand after returning to room temperature.

*Only inflate ball with pump that is included with exercise ball.

*Pump will not allow ball to be over inflated.

Information about Exercise Ball:

Important: Read all warnings and cautionary statements to reduce risk of injury when using your exercise ball.

Suggested Sizing Guidelines:

Body Height:

Recommended Ball Size:

5 ft. and Under

45cm

5 ft. to 5 ft. 6in.

55cm

5 ft. 7 in. to 6 ft.

65cm

6 ft. to 6ft. 5in.

75cm

6ft. 5in. and over.

85cm

1. Inflate ball only as described. Improper inflation may cause damage to ball.
2. Wear appropriate clothing and footwear to protect ball from any incidental damage.
3. Remove all objects from your body such as rings, watches, belt buckles, or any sharp object that could potentially puncture ball during use.
4. Clean exercise ball with a soft cloth with warm, soapy water. Do not use abrasive or chemical cleaners.
5. Use ball on a padded non-abrasive floor to prevent slipping and abrasion to the ball.
6. The ball should be used only indoors.
7. Do not exceed weight limit of 2000lbs of force exerted to ball.
8. It is not recommended to use additional weights while performing exercises, which could potentially cause the user to exceed maximum weight.
